TASKI
IntelliPad

Clean and Burnish Pad – 2 in 1

Description

TASKI IntelliPad is a diamond impregnated floor care pad for cleaning and burnishing of both coated and non-coated floors. This premium pad has an outstanding sustainability profile and provides excellent cleaning results.

Developed to provide superior and consistent cleaning performance, IntelliPad also enhances the clarity and gloss of the treated floors. The pad is easy to use and generates a better cost in use.

IntelliPad is made of PET fibres and topped with a special diamond mixture. The type of diamonds used make IntelliPad less abrasive than standard red pads and keeps the floor finish smoother for an improved appearance.

TASKI IntelliPad is another Intelligent Solution by TASKI: TASKI IntelliDose, TASKI IntelliFlow, TASKI IntelliTrail.

Key advantages

- Maximizes floor cleanliness and appearance
- One pad serves for both burnishing and daily cleaning
- Superior quality and longer life (3 to 4 times longer than a conventional pad)
- Sustainable – 100% recycled material
- Fully integrated with TASKI machines and Diversey Care chemicals to deliver highest cleaning efficiency available

Benefits

- Increases metered gloss and clarity
- Improves scratch repair on all types of finish
- Enhances appearance
- Easy to use
- Simplicity

Designed For

Every customer who is searching for simplicity and efficacy in their daily cleaning and burnishing methods (Government/Education, BSC, Healthcare, Hospitality, Retail, etc..)

Use overview

TASKI IntelliPad is designed to be used for:

- Daily cleaning with scrubber drier and single disc machines (150rpm to 330rpm)
- Intermediate cleaning such as the spray method with a single disc machine (330rpm to 900rpm)
- Burnishing/polishing with single disc machines (from 400rpm to 3000rpm – UHS machine)
- Suitable for resilient floor, coated or non-coated (VCT, Vinyl, LVT, Linoleum) and PU floors (layered floors)

Clean and Burnish Pad – 2 in 1

Chemical recommendation (IntelliDose Solution):

For better cleaning efficiency, to enhance floor cleanliness, to improve waste water pick-up, to sublimate floor brightness and to confere additional protection, use TASKI IntelliDose chemicals TASKI Jontec Tensol ID (Europe) and Revive Plus SC ID (North America).

Use directions

The pad is used with cleaning solutions to clean and buff floors.

- Place the pad under the scrubber drier/single disc machine pad holder
- Clean/polish the floor with the well prepared machine
- Pick up dirty cleaning solution/dust

Take care of the pads

- After use, remove the pads from the pad holder
- Rinse the pads under tap water and leave to dry
